

When can I withdraw my ASK on pending?

Permission Support - 2024-10-18 - Withdrawal

To withdraw your pending ASK, you need to fulfill the following conditions:

1. **Successful ID Verification**

Complete the ID verification process successfully. Accessible in your **Profile**.

2. **Reach the Required Threshold**

Achieve the specified threshold, as indicated on your wallet page.

3. **Await Availability of Pending ASK for Withdrawal**

Please wait for your pending ASK to become available for withdrawal. This may take a couple of days, which is why sometimes you have reached the threshold, but the pending ASK is not yet available to withdraw.
